"We don't find customers for our products, we find products for our customers."

About **BRIGHT**

Bright is an ISO 9001:2015, certified company

Bright is an ISO 9001:2015, certified company is headquartered in Mangalore, Karnataka (India). As speed is the new currency in business today, with a start in early 1990's, it has enhanced its capabilities in 2 decades at a breathtaking pace and is operating successfully through IV manufacturing units. Our present Production Capacity is 24,000 Metric tons per annum.

BRIGHT has a world class facility with latest up-to-date technology for automatic material handling with Silos, a machinery with auto die and thickness gauging system, numerous high speed and output machines with technologies from Austria and Germany.

WHAT WE OFFER

Bright has a completely integrated and modern facility that is equipped with requisite experience, infrastructure and expertise to design and manufacture customized products that are tailored to meet the requirements of our valued customers.

Bright believes in offering new value added products to our customers and establishing close and honest long-term relationships with their clients. We guarantee your satisfaction for we believe your success begets our success.

VISION

As the saying goes “Only dead fish go with the flow”, we at BRIGHT are very much alive and breathing, flowing upstream against the currents of numerous challenges that we face. With a strong foot-hold in the Indian Industry, we are now looking for opportunities to cross borders and be known worldwide. The exponential growth that we have witnessed has bolstered our confidence. It has increased our drive to incessantly strive for novel arenas to venture through.

MISSION

To provide value added cost – efficient and durable fabrics and bags

To achieve complete customer satisfaction

To improvise our capabilities for a quality and speedy production

FIBC JUMBO BAGS

100%
QUALITY

Zero defects 100% quality

Bright - A market leader in the woven sack industry

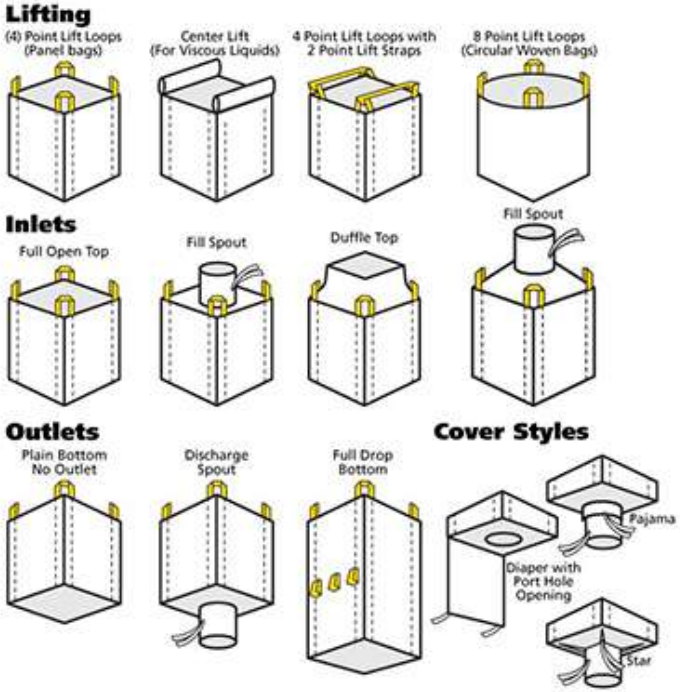
FIBC JUMBO BAGS

FIBC jumbo bags are very flexible in pattern and dimensions.

They usually come with different types of loops such as cross-corner loops, slings and standard loops.

They are used in the industry for transporting bulk material.

FIBC Jumbo bags are made of finest quality and they can hold 5 times more than the Standard bags.



LENO BAGS & FABRICS

BRIGHT is counted among the reputed Manufacturers and Suppliers of PP Leno Fabrics. This fabric is demanded due to its soft texture, fine pattern and high tear strength. Leno Fabrics are made into sacks to store fruits and vegetables.

These are Cheaper in comparison to jute bags and absolutely safe in direct contact with food products and do not cause physical contamination.

POLYPROPYLENE WOVEN SACKS & FABRICS

Bright is one of the leading **Polypropylene** (PP) bags manufacturer in South India. We offer various types of bags for different product application. We make polypropylene woven bags according to our customer's specifications, concerning dimensions and weights.

PP Woven SACKS & FABRICS (Laminated / Unlaminated)

Polypropylene Woven Bags are used for packing of a wide variety of products like cements, solid chemicals, fertilizers, food grains, sugar, cashew nuts, animal feeds, flour, maize etc.

PP Bags (With Liner): Required for packing of fine materials. Additional liner ensures any leakage of product.

PINCH BOTTOM BAGS

Bright FIPL specializes in new types of packaging solutions for retail industry. Pinch Bottom Bags are new typesof bags which are **BOPP** laminated these bags are tampered proof hence is the complete solution retailers for packaging in the industries like rice, sugar, pet food and many more...these bags are made as per requirement from 5KG to 25KG bags.

BOPP BLOCK BOTTOM BAGS

These bags are laminated bags, made without adhesives using heat sealing technology.

There are 2 varieties: Normal laminated & BOPP laminated as per customer requirement.

These bags are commonly used in cement, rice, wallputty industries etc. Bags can be manufactured as per customer requirement for packing from 10kg to 50KG material.

BANSAL WIND MILLS

Taking note of depleting energy resources and acting on it the bansal group has invested generously in green wind energy .The units are running successfully and the power produced is being wheeled and used indigenously by our own company ,**BRIGHT** ,Mangalore, Karnataka.

Ak bansal group further plans to invest more in green energy and do our bit to serve mother nature .

SATYAM ROLLER FLOUR MILLS

In 1992, started Flour milling in Southern Kerala. SRFM expanded rapidly over the years with current production capacity of 2500 MT per month and captured the market.

We manufacture Wheat flour, Soji, Maida, Bran etc. leading the market with its established own brands viz. Hi-Food plus, Gold feast, Tiger Gold, Prestige & Flying Horse.

All the products are processed on Fully Automated Mill imported from world leader BUHLER AG, Switzerland. The mill is an epitome of standard of hygine, controlled grinding, resulting in fine products.

Premium quality of wheat is procured, and stored in world class wheat storage system imported from GSI, USA. These SILOS ensure the wheat retains freshness & quality.

FACILITIES IMPRESSION

Ever since the formation of the company, our focus has been on *maintaining quality* which is why we are constantly upgrading our extrusion, weaving and sewing machinery. For production, **we have IV large UNITS** which are spread over 4 lakh sq. feet area.

The combined production capacity of these units is 30000 MT annually. For hassle free working and uninterrupted power , we have 33 KV direct power supply. A brief about our facilities is given below:
